

## Midterm Lab Task 5. Using Inline and Internal CSS

1. Open your resume Lab Task 1.
2. Apply the ff: requirements
  1. Use Internal CSS and appropriate **css selector** to do the ff:
    1. Set the **body** background color to any color you want
    2. Adjust the body margins to 100px (top right left and bottom)
    3. Set the appropriate font-family for the text content of your resume
  2. Use the **class selector** for all Heading 2 tags used in your resume and apply any appropriate color that you want
  3. Style the image with a border and center on the page  
**(use inline style)**
  4. Below the image (Center the full name, address, email, and contact number height set to 12) –  
**Use id selector**
  5. You may freely add appropriate CSS for the paragraphs and list content of your resume
  6. Apply appropriate styles for the table as well.  
**(use id selector)**
  7. Link Requirements:
    1. Create an Email link to your email.
    2. Create a link within the page using href and id selector for the ff:
      - Summary
      - Education
      - Experience
      - Hardware Skills
      - Software Skills
    3. Remove the underline (text-decorations set to none) for all text links

4. Set a different color for the ff: link state:

a:link - a normal, unvisited link

a:visited - a link the user has visited

a:hover - a link when the user mouses over it

a:active - a link the moment it is click

8. At the bottom of the resume add a Back to Top Link (using href and id selector
